The proposed project will allow Big Valley Band of Pomo Indians of the Big Valley Rancheria to develop data management systems for habitat monitoring and reporting. The proposed project will allow Oregon Department of Environmental Quality to organize and catalog environmental data (air), provide data access and reporting, and support the implementation of the IPDES program. This project will allow Idaho DEQ to: continue building systems to gather, store, and transmit the IPDES program data in an accurate and timely manner; and support the implementation of the IPDES program. The proposed project will allow University of Vermont and State Agricultural College to standardize data management best-practices and data reporting. The proposed project will allow Redwood Valley Rancheria to build the data management capabilities necessary to effectively manage environmental data. This Infrastructure Investment and Jobs Act (IIJA) project will provide technical assistance (e.g., information, training, expert advice) using P2. This Infrastructure Investment and Jobs Act (IIJA) assistance agreement will provide technical assistance (e.g., information, training, expert advice) using P2. The proposed project will allow Habematolel Pomo of Upper Lake's project to build upon an existing framework for digitizing aquatic air monitoring data. This Infrastructure Investment and Jobs Act (IIJA) project will provide technical assistance (e.g., information, training, expert advice) using P2. This Infrastructure Investment and Jobs Act (IIJA) project will provide technical assistance (e.g., information, training, expert advice) using P2. This Infrastructure Investment and Jobs Act (IIJA) assistance agreement will provide technical assistance (e.g., information, training, expert advice) using P2. This Infrastructure Investment and Jobs Act (IIJA) assistance agreement will provide technical assistance (e.g., information, training, expert advice) using P2. This Infrastructure Investment and Jobs Act (IIJA) assistance agreement will provide technical assistance (e.g., information, training, expert advice) using P2. This Infrastructure Investment and Jobs Act (IIJA) project will provide technical assistance (e.g., information, training, expert advice) using P2. This Infrastructure Investment and Jobs Act (IIJA) project will provide technical assistance (e.g., information, training, expert advice) using P2. The proposed project will allow The Confederated Tribes and Bands of the Yakama Nation to expand its network of in situ sensors in the Yakima River basin. This Infrastructure Investment and Jobs Act (IIJA) project will provide technical assistance (e.g., information, training, expert advice) using P2. This Infrastructure Investment and Jobs Act (IIJA) project will provide technical assistance (e.g., information, training, expert advice) using P2. This Infrastructure Investment and Jobs Act (IIJA) project will provide technical assistance (e.g., information, training, expert advice) using P2. This Infrastructure Investment and Jobs Act (IIJA) assistance agreement will provide technical assistance (e.g., information, training, expert advice) using P2. The proposed project will allow Washington State Department of Natural Resources to develop new data gathering applications and to re-use existing data. The proposed project will implement updates to schema and new reporting that will ensure timely and accurate data flow between AZDEQ and the State of Washington. The proposed project will allow Montana Department of Environmental Quality to the proposed Water Quality, Waste Management, and Remediation Program. The proposed project will allow the Utah Department of Environmental Quality to allow the Uinta Basin, a low income, ethnically diverse population, to develop a data management system. The proposed project will allow the Confederated Tribes of the Umatilla Indian Reservation to own, develop and support the Centralized Data Management System. The proposed project will allow Eight Northern Indian Pueblos Council, Inc. to streamline environmental data management processes, electronic reporting, and data sharing. This Infrastructure Investment and Jobs Act (IIJA) project will provide technical assistance (e.g., information, training, expert advice) using P2. This Infrastructure Investment and Jobs Act (IIJA) assistance agreement will provide technical assistance (e.g., information, training, expert advice) using P2. This Infrastructure Investment and Jobs Act (IIJA) assistance agreement will provide technical assistance (e.g., information, training, expert advice) using P2. This Infrastructure Investment and Jobs Act (IIJA) project will provide technical assistance (e.g., information, training, expert advice) using P2. This Infrastructure Investment and Jobs Act (IIJA) assistance agreement will provide technical assistance (e.g., information, training, expert advice) using P2. This Infrastructure Investment and Jobs Act (IIJA) assistance agreement will provide technical assistance (e.g., information, training, expert advice) using P2. This Infrastructure Investment and Jobs Act (IIJA) assistance agreement will provide technical assistance (e.g., information, training, expert advice) using P2. The main objective of this project is to develop a programmatic approach for the rapid assessment of wetland ecosystem services (ES) tools. The main objective of this project is to increase awareness and understanding of diverse approaches to managing multiple aspects of state wetlands. The goal of the proposed project is to engage with state and tribal wetland programs to identify examples of existing plans, programs, tools, and best practices. The goal of the proposed project is to develop the capacity of state and Tribal wetland programs to effectively address climate change in wetlands. This Infrastructure Investment and Jobs Act (IIJA) assistance agreement will provide technical assistance (e.g., information, training, expert advice) using P2. The Compliance Assistance Centers provide web-based user friendly "first-stop-shops" where regulated entities can find comprehensive information on environmental compliance. The purpose of this project is to conduct a statewide assessment of the 72 coal ash impoundments in the State of Illinois, which contain toxic materials. The Senior Environmental Employment (SEE) Program provides an opportunity for retired and unemployed older Americans aged 55 and over to work part-time. Through research, technical assistance and outreach, this project, also known as the Brownfields Revitalization Anti-Displacement Strategies, will support the National Tribal Water Council (NTWC) in its efforts to increase communications and raise awareness on priority water issues. The Rural Community Assistance Partnership Incorporated (RCAP), in coordination with the Environmental Protection Agency (EPA), will provide technical assistance to rural communities. This project will organize and aim to produce the 2023, 2024, 2025, and 2026 CIFA State Revolving Fund (SRF) Training Workshops intended to enhance community wildfire smoke preparedness. The agreement provides funding to enhance community wildfire smoke preparedness. Specifically, this recipient will develop a set of interventions to address the recurring hazard. This agreement provides funding to enhance community wildfire smoke preparedness. Specifically, this recipient will strengthen preparedness through the implementation of a community-based preparedness plan. The agreement provides funding to enhance community wildfire smoke preparedness. Specifically, this recipient will The Gonzaga Center for the Environment to develop a community-based preparedness plan. The agreement provides funding to enhance community wildfire smoke preparedness. Specifically, this recipient will address this recurring hazard through the implementation of a community-based preparedness plan. The agreement provides funding to enhance community wildfire smoke preparedness. Specifically, this recipient will base its Wildfire Smoke Preparedness Plan on the latest science and best practices. The agreement provides funding to enhance community wildfire smoke preparedness. Specifically, this recipient will engage diverse community members in the development of a community-based preparedness plan. The agreement provides funding to enhance community wildfire smoke preparedness. Specifically, the Montana Department of Public Health and Safety will enhance communities' preparedness through the implementation of a community-based preparedness plan. The agreement provides funding to enhance community wildfire smoke preparedness. Specifically, this recipient will enhance communities' preparedness through the implementation of a community-based preparedness plan. The agreement provides funding to enhance community wildfire smoke preparedness. Specifically, Colorado's Department of Public Health and Safety will enhance communities' preparedness through the implementation of a community-based preparedness plan. Recipient proposes to examine the ex post benefits, costs and distributional impacts of the Safe Drinking Water Act's (SDWA) water quality standards. The Senior Environmental Employment (SEE) Program provides an opportunity for retired and unemployed older Americans aged 55 and over to work part-time. The Senior Environmental Employment (SEE) Program provides an opportunity for retired and unemployed older Americans aged 55 and over to work part-time. This grant will support EPA's goal of ensuring clean and safe water for all communities through the development of a written report that identifies priority water issues. The primary objectives of the project are to conduct scientific gatherings of researchers, students, policy practitioners, and other interested parties. The proposed project will allow Houlton Band of Maliseet Indians to increase the number of sites assessed on a continuous basis for dissolved oxygen levels.

Environmental Finance Center Grants
Senior Environmental Employment Program
Science to Achieve Results (STAR) Program
Environmental Justice Communities Pass-through Funder Program (EJCPF)
Environmental Justice Communities Pass-through Funder Program (EJCPF)
Environmental Justice Collaborative Problem-Solving Cooperative Agreement Program
Science to Achieve Results (STAR) Program
Senior Environmental Employment Program
Brownfields Training, Research, and Technical Assistance Grants and Cooperative Agreements

Promoting Readiness and Enhancing Proficiency to Advance Reporting and Data for the Gullah Geechee Nation
CWII Region 1 SEE Agreement
Multimodal Nanosensor for Field Detection and Degradation of PFAS Contamination in Ground Water and Wastewater
Research Triangle Institute (RTI) - Grantmaker - Initial Award
RTI Thriving Communities Grantmaker: Subsequent Award
Learning to Live with Lead—Reducing Exposure in Environmental Justice Communities in Pennsylvania and Massachusetts
Developing Effective Assessment Approaches for Cumulative Impacts and Driving Environmental Health Equity in Underserved Communities
Community-Driven Assessment of Cumulative Impacts on Health, Food, and Water Security in Vieques, Puerto Rico
Achieving Change for Cumulative Impacts on Neighborhoods (ACCION II)
Mixed-Methods Cumulative Impacts Research and Health Analysis to Inform Policy Proposals in Bernalillo County, New Mexico and Richmon
Community-Based Research in Hispanic Neighborhoods for Sustainable Solutions in Indoor Environmental Justice Impacted by Air Pollution,
NAPCA SEE Agreement for Region X
Technical Assistance to Tribal Nations and Entities Addressing Brownfields

Guidance on Practical and Affordable Manganese Treatment for Small Drinking Water Systems.

Data Equity for Community Impact

Western Indigenous Network Solar For All (WIN-SFA) Program

Solar Access for Nationwide Affordable Housing (SANAH)

Montana Solar for All

Idaho Solar for All

Wyoming Solar for All

Solar for All of Utah

Southeast Rural Power Solar for All

3D-Printed Floating Photocatalyst Structures that Mimic Natural Objects to Combat Harmful Algal Blooms

100% Compostable Packaging Film

Zirconium-Modified Mica Coupled with Nanobubbles for Enhanced Phosphorus Removal, Recovery, and Reuse

Solar-Driven Photodegradation of MC-LR Using a Novel Au-Decorated Ni Metal-Organic Framework (Au/Ni-MOF)

An Open-Source Droplet Digital PCR (ddPCR) System for the Rapid and Accurate Detection of Bacteria from Environmental Water Samples

Developing Geopolymer Cement using Sewage Sludge Ash as Precursors

Cellulose-Metal Organic Frameworks Hybrid Adsorbent for PFAS Removal from Water

Navigating the Food-Energy-Water Nexus through the Conversion of Food Waste to Biocrude

Biochar-Enabled Platform for Enhanced Destruction and Defluorination of Short-Chain Per- and Polyfluoroalkyl Substances (PFAS) in Water

Enhancement of Per- and Polyfluoroalkyl Substances (PFAS)-Contaminated Organic Wastes Treatment in Anaerobic Digestion by Carbon M

This agreement provides funding to Palmetto Futures (Provider/recipient) to provide technical assistance and related support to Community B. The Senior Environmental Employment Program provides an opportunity for retired and unemployed older Americans aged 55 and over to share their knowledge and skills. The project will develop and validate nanosensing technology integrated with a nano-remediation platform to monitor and completely degrade environmental pollutants. The purpose of the Environmental Protection Agency's (EPA) Thriving Communities Grantmaking Program (EJ TCGM) is to transform disadvantaged communities. Research Triangle institute (RTI) will utilize the Subsequent Award totaling \$95,000,000 in EJ TCGM funding to serve as one of eleven Grants. This agreement provides funding under the Inflation Reduction Act (IRA) to the Clean Water Fund. This agreement provides funding of \$497,000. The purpose of this project is to create comprehensive cumulative impact indices that encompass the effects of chemical and non-chemical stressors. The goal of this project is to develop a mixed methods approach for collecting environmental, social, food, and health data which will be used to inform policy decisions. The goal of this project is to elucidate the policy-making process to mitigate environmental exposures and elevate resident voices to address environmental inequities. This research project aims to fill existing gaps in cumulative burden analysis, including air and water pollution burdens, and to better inform local decision-making. The goals of the project are to examine the cumulative exposure to chemical and non-chemical stressors in Hispanic environmental justice neighborhoods. The Senior Environmental Employment Program provides an opportunity for retired and unemployed older Americans aged 55 and over to share their knowledge and skills. This project will provide nationwide technical assistance via E-tool and web resources; trainings, outreach and educational programming; and

This project will evaluate costs of treatment (capital and operational), treatment performance, and residuals handling/disposal, particularly targeting small water systems (<10,000 population).

The recipient will provide financial and technical assistance to low-income This agreement provides funding under the Inflation Reduction Act. The recipient will provide financial and technical assistance to low-income Note: A Special payment condition applies to this award This agreement provides funding under the Inflation Reduction Act. The recipient will The award removes the 2% funding restriction from the Solar for All award and incorporates the necessary budget and workplan documentati This agreement provides funding under the Inflation Reduction Act. The recipient will provide financial and technical assistance to low-income This agreement provides funding under the Inflation Reduction Act. The recipient will provide financial and technical assistance to low-income This agreement provides funding under the Inflation Reduction Act. The recipient will provide financial and technical assistance to low-income This agreement provides funding under the Inflation Reduction Act. The recipient will provide financial and technical assistance to low-income The Senior Environmental Employment (SEE) Program provides an opportunity for retired and unemployed older Americans aged 55 and ove The Senior Environmental Employment (SEE) Program provides an opportunity for retired and unemployed older Americans aged 55 and ove This agreement provides funding under the Inflation Reduction Act. The recipient will provide financial and technical assistance to low-income This agreement provides funding under the Inflation Reduction Act. The recipient will provide financial and technical assistance to low-income The purpose of this project is to teach operators of Public Water Systems (PWSS) in Delaware about the new maximum containment levels (The purpose of this project is to address seaweed-related nutrient pollution in the Great Bay in the State of New Hampshire. This work will su The purpose of this project is to determine the public response to PFAS as an emerging pollutant. The researchers plan to use experimental & The Senior Environmental Employment (SEE) Program provides an opportunity for retired and unemployed older Americans aged 55 and ove The purpose of the State FIFRA Issues Research and Evaluation Group (SFIREG) is to identify, evaluate and recommend solutions to pestici This agreement provides funding under the Inflation Reduction Act (IRA) to Opportunity Finance Network (OFN). The recipient will provide fu This agreement provides funding under the Inflation Reduction Act (IRA) to Climate United (CU). The recipient will utilize the funding to reduc This agreement provides funding under the Inflation Reduction Act (IRA) to Justice Climate Fund, Inc. The recipient will provide funding and This agreement provides funding under the Inflation Reduction Act (IRA) to Coalition for Green Capital (CGC). The recipient will utilize the fun This agreement provides funding under the Inflation Reduction Act (IRA) to Inclusiv. The recipient will provide funding and technical assistanc This agreement provides funding under the Inflation Reduction Act (IRA) to Appalachian Community Capital Corporation. The recipient will uti The goal of this project is to understand how and to what degree contamination of farmland by PFAS can bioaccumulate in native plants and : The Senior Environmental Employment Program provides an opportunity for retired and unemployed older Americans aged 55 and over to sh The Senior Environmental Employment (SEE) Program provides an opportunity for retired and unemployed older Americans aged 55 and ove The overall goal of this project is to equip farmers with a set of integrated and scalable PFAS mitigation strategies, targeting key points of PF/ The goal of this project is to understand the sewage sludge treatment processes contributing to PFAS partitioning unto biosolids, PFAS accu The objective of this project is to assess local watersheds and food sources in the Peskotomuhkati (Passamaquoddy) homelands for PFAS ac The goal of this project is to enhance the understanding of Per- and polyfluoroalkyl substances (PFAS) uptake and accumulation in plants gr The Senior Environmental Employment (SEE) Program provides an opportunity for retired and unemployed older Americans aged 55 and ove

The goal of this project is to examine the baseline PFAS levels in typical supplies and resources for urban farming and gardening, and to examine the bioavailability of PFAS in edible crops.

This project will evaluate the bioavailability of per- and polyfluoroalkyl substances (PFAS) in agricultural environments, research PFAS transp The goals of this project are to evaluate the fate, transport, and bioaccumulation of Per- and Polyfluoroalkyl substances (PFAS) in a crop-live The goals of this project are to comprehensively understand PFAS uptake and bioaccumulation in plants across various nutrient condition, to This project aims to test the overarching hypothesis that proper engineering control will allow continued and beneficial use of biosolids on agri This agreement provides funding under the Inflation Reduction Act (IRA) to Power Forward Communities (PFC). The recipient will utilize the f This agreement provides funding under the Inflation Reduction Act (IRA) to Native CDFI Network (NCN). The recipient will provide funding a The award's purpose is to improve small water system compliance by providing training and technical assistance to rural, small, and tribal sys The Environmental Finance Center Network Team (EFCN Team), which includes Syracuse University EFC, Michigan Technological Universi The Rural Community Assistance Partnership (RCAP), in collaboration with its partners, will provide technical, managerial, and financial capa

Surveys,Studies, Investigations, Demonstrations and Training Grants - Section 1442 of the Safe Drinking Water Act
Surveys, Studies, Investigations, Demonstrations, and Training Grants and Cooperative Agreements - Section 104(b)(3) of the Clean Water Act
Congressionally Mandated Projects
Senior Environmental Employment Program
Hydrofluorocarbon Reclaim and Innovative Destruction Grants
Surveys-Studies-Investigations-Demonstrations and Special Purpose Activities relating to the Clean Air Act
Centers of Excellence for Stormwater Control Infrastructure Technologies Grant Program
Centers of Excellence for Stormwater Control Infrastructure Technologies Grant Program
Innovative Water Infrastructure Workforce Development Program (SDWA 1459E)
Innovative Water Infrastructure Workforce Development Program (SDWA 1459E)
Innovative Water Infrastructure Workforce Development Program (SDWA 1459E)
Innovative Water Infrastructure Workforce Development Program (SDWA 1459E)
Environmental and Climate Justice Block Grant Program
Surveys-Studies-Investigations-Demonstrations and Special Purpose Activities relating to the Clean Air Act
Surveys-Studies-Investigations-Demonstrations and Special Purpose Activities relating to the Clean Air Act
Surveys-Studies-Investigations-Demonstrations and Special Purpose Activities relating to the Clean Air Act

Environmental Information Exchange Network Grant Program and Related Assistance

Safe Drinking Water Act Compliance Assistance Program for Small Systems
RCAP Training and Technical Assistance for Private Drinking Water Well Owners to Help Improve Water Quality
Piloting Accessible At-Home Tests for Detecting Lead in Drinking Water in Chicagoland
To provide technical assistance to Underground Injection Control Program, Office of Water (UICP OW) SEE Program
Scalable Catalytic and Assisting Technologies for Efficient Hydrofluorocarbon Destruction
Responsible Destruction and Mineralization of Hydrofluorocarbon (HFC) Refrigerants via Alkaline Hydrolysis
SMART-RECLAIM: Scalable, Modular and Adaptable Reclamation Technology for Hydrofluorocarbon Refrigerant Enhancement, Circular Log
Enhanced Efficacy and Portability of HFC Destruction through Liquid Injection Incineration Catalyzed by Non-thermal Gliding Arc Plasma
Assessment of Innovative Destruction Technologies and Demonstration of Conversion Technology by Chemical Reaction with Hydrogen (H ₂)
National School Air Quality and Climate Action Network
National Stormwater Manager's Clearinghouse
Coastal Stormwater Center of the Southeast
Educating the Future Workforce on Adapting Water Infrastructure to Climate Change Impacts on the Natural Environment
Water Workforce Training and Recruitment Hub (WTR Hub)
NRWA Innovative Water Infrastructure Workforce Development Program
Future Water Leaders
Water utility workforce development benefiting disadvantaged communities, reducing greenhouse gas emissions and other pollutants.
Clean Air School Challenge: empowering K-12 schools from low-income, disadvantaged and Tribal communities nationwide to develop, imple
Technical assistance and training to expand national-scale capacity for building and improving systems to expand and sustain in-home enviro
National Radon Program Services (NRPS)
Capacity Building, Education, and Training of School Staff in NYS for Indoor Air Quality and Greenhouse Gas Reduction
National Strategy to Enact Perpetual IAQ Management Plans and Reduce GHG Emissions in Tribal and Low-Income School Districts
Advancing Programs and Policies to Reduce Indoor Air Risks: Education, Outreach, and the State IAQ Workshops
Expanding National Radon Action 2024-2027: Supporting implementation of the National Radon Action Plan and building capacity to reduce r
Building Technical Capacity for Radon Risk Reduction
Building Systems to Reduce Indoor Air Risks: Customizable TA to Amplify and Expand National-Scale Capacity to Address IEDOH in Comm
West Michigan Water Career Program 2.0
Brownfields Revolving Loan Fund Technical Assistance Grant
Meeting the future: K-12 development to support water workforce infrastructure
The City of Baltimore, Bureau of Water and Wastewater Has Joined with National, Regional, and Local Partners to Pursue a Workforce Pipel
Skill Building, Recognition and Networks: Retaining Emerging Leaders in the Water Sector
Kansas City Regional Water Workforce Initiative
The Transformative Water Leadership Academy
RCAP's Innovative Water Infrastructure Workforce Development Program to Train and Credential Administrative Professionals
Hawaiʻrsquo;s First Decentralized Wastewater Management Training Program
Training for Improved Protection of Drinking Water Sources
Improving Indoor Air Quality in Schools in Underserved Urban, Rural and Tribal Communities by Integrating Building Energy Efficiency Asses
Clean Corridor Coalition - Installation of charging hubs for trucks travelling through CT, NJ, MD & DE
King County CPRG Implementation Grant
ODEQ Climate Pollution Reduction Implementation Grant
Accelerating Clean Energy Savings Across Alaska’s Coastal Communities (ACES - AK)
Nez Perce Tribe CPRG-I General Competition
Mid-Hudson Municipal Landfill Emissions Mitigation
UFW Foundation TANG for FWTEG
Technical assistance for applicants of health care initiative grant.
Management of the SEE Program Office of the Chief Financial Officer
Interdepartmental Environmental Data Management and Outreach to Tribal Membership
Choctaw Nation of Oklahoma Project Sharing Okchamali Data
Standardizing stream water quality data collection and management
Improving Monitoring Location Metadata Management, Enhancing Data Access, NRSA Habitat Data QA Processing and Metric Generation T
East Region Hatchery Evaluation and Development Program Data Exchange.
2024 NETWORK EXCHANGE GRANT
Title V Modernization
Water Intake Monitoring and Environmental Inventory Reporting
Exchange Network (EN) Funding Area 2: Underground Injection Control (UIC) Data Availability Projects
Upper Mississippi River Water Resources Database-Network Exchange Grant FY24
Water Quality Database Improvements and Web Portal Development

Through this program, the National Rural Water Association will deliver a training and technical assistance program for small public water systems. The Rural Community Assistance Partnership, Inc. (RCAP), in collaboration with its six regional partners, CommunitiesUnlimited (CU), Great Plains RCAP, Energy Innovation Center Institute, Inc. (EICI), The Senior Environmental Employment (SEE) Program provides an opportunity for retired and unemployed older Americans aged 55 and over to share their knowledge and experience. This agreement provides funding under the Inflation Reduction Act (IRA) to the University of California, Riverside for hydrofluorocarbon (HFC) reclaimer development. This agreement provides funding under the Inflation Reduction Act (IRA) to the University of Washington for hydrofluorocarbon (HFC) reclaimer development. This agreement provides funding under the Inflation Reduction Act (IRA) to Texas A&M University Engineering Experiment Center for hydrofluorocarbon (HFC) reclaimer development. This agreement provides funding under the Inflation Reduction Act (IRA) to Drexel University for hydrofluorocarbon (HFC) innovative destruction. This agreement provides funding under the Inflation Reduction Act (IRA) to the Air Conditioning, Heating and Refrigeration Technology Institute for hydrofluorocarbon (HFC) reclaimer development. This agreement provides funding to Center for Green Schools at the U.S. Green Building Council (CGS-USGBC). Specifically, the recipient will accelerate career tracks in the water utilities sector. The Center for Watershed Protection (CWP) will develop, operate, and maintain a National Stormwater Manager's Clearinghouse. The Center for Watershed Protection (CWP) proposes to establish a Coastal Stormwater Center (CSC) to improve stormwater management. The agreement provides funding to the University of New Mexico. Specifically, the recipient will accelerate career tracks in the water utilities sector. The agreement provides funding to The Water Tower Institute, Inc. Specifically, the recipient will accelerate career tracks in the water utilities sector. The agreement provides funding to National Rural Water Association (NRWA). Specifically, the recipient will accelerate career tracks in the water utilities sector. The agreement provides funding to Wichita State University. Specifically, the recipient will accelerate career tracks in the water utilities sector. The agreement provides funding to Energy Innovation Center Institute, Inc. Specifically, the recipient will create workforce development activities. This agreement provides funding to the American Lung Association (ALA). Specifically, the recipient will plan, implement and evaluate the Clean Indoor Air Program. This agreement provides funding to the Public Health Institute (PHI), specifically for their Regional Asthma Management & Prevention (FAMP) program. This agreement provides funding to Kansas State University for the National Radon Program Services. Specifically, the recipient Kansas Indian Affairs will accelerate career tracks in the water utilities sector. This agreement provides funding to the New York State Department of Health (NYSDOH)/Health Research Inc (HRI). Specifically, the recipient will accelerate career tracks in the water utilities sector. This agreement provides funding to The Go Green Initiative (GGI). Specifically, the recipient will partner with the National School Boards Association to advance state policies and programs for environmental education. This agreement provides funding to the Environmental Law Institute. Specifically, the recipient will advance state policies and programs for environmental education. This agreement provides funding to the American Lung Association (DC). Specifically, the recipient will continue its ongoing work to support indoor air quality. This agreement provides funding to the Conference of Radiation Control Program Directors, Inc.. Specifically, the recipient will provide a national forum for radiation control. This agreement provides funding to amplify and expand national-scale capacity to address Indoor Environmental Determinants of Health (IED). The agreement provides funding to Grand Rapids Community College. Specifically, the recipient will accelerate career tracks in the water utilities sector. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. The agreement provides funding to Board of Regents, NSHE on behalf of the Desert Research Institute. Specifically, the recipient will accelerate career tracks in the water utilities sector. The agreement provides funding to the City of Baltimore. Specifically, the recipient will accelerate career tracks in the water utilities sector and provide a model for other cities. The agreement provides funding to Multiplier. Specifically, the recipient will accelerate career tracks in the water utilities sector and provide a model for other cities. The agreement provides funding to the Center for Watershed Protection, Inc. Specifically, the recipient will accelerate career tracks in the water utilities sector. The agreement provides funding to American Water Works Association. Specifically, the recipient will accelerate career tracks in the water utilities sector. The agreement provides funding to Rural Community Assistance Partnership (RCAP). Specifically, the recipient will accelerate career tracks in the water utilities sector. The agreement provides funding to the Pacific International Center for High Technology Research. Specifically, the recipient will accelerate career tracks in the water utilities sector. The purpose of this project is to provide training to develop and expand the capability of state and Tribal Underground Injection Control (UIC) programs. This agreement provides funding to University of Utah to execute capacity building, Tribal capacity building, training, education, and research. The purpose of this award is to provide funding under the Inflation Reduction Act (IRA) to New Jersey Department of Environmental Protection. The purpose of this award is to provide funding under the Inflation Reduction Act (IRA) to King County, Washington. The recipient will implement a water reuse program. The purpose of this award is to provide funding under the Inflation Reduction Act (IRA) to Oregon Department of Environmental Quality. The purpose of this award is to provide funding under the Inflation Reduction Act (IRA) to the Southeast Conference. The recipient will implement a water reuse program. The purpose of this award is to provide funding under the Inflation Reduction Act (IRA) to the Nez Perce Tribe. The recipient will implement a water reuse program. The purpose of this award is to provide funding under the Inflation Reduction Act (IRA) to the Hudson Valley Regional Council (HVRC). The recipient will implement a water reuse program.

The purpose of the award is to provide technical assistance on the grant application process and developing grant applications to eligible applicants of Notice of Funding Opportunity (EPA-OCSPP-OPP-2024-006) to be published in September 2024.

The purpose of the award is to provide technical assistance on the grant application process and developing grant applications to eligible applicants of Notice of Funding Opportunity (EPA-OCSPP-OPP-2024-006) to be published in September 2024. The Senior Environmental Employment Program provides an opportunity for retired and unemployed older Americans aged 55 and over to share their knowledge and experience. This project by the Kickapoo Tribe of Oklahoma proposes to implement an interdepartmental environmental asset and workflow management system. This project by the Choctaw Nation of Oklahoma proposes to develop a website that consolidates water level data from throughout the reservation. This project by the Chickaloon Village Traditional Council proposes to develop a digitized data entry system; standardize data management practices. This project by the Oklahoma Water Resources Board (OWRB) proposes to improve monitoring location metadata storage structures and map. This project by Oregon Department of Fish and Wildlife proposes to map, standardize, and validate its data inventory; develop and test a data management system. This project by the Colorado Department of Public Health and Environment proposes to modernize the collection and processing of water quality data. This project by the California South Coast Air Quality Management District (AQMD) proposes to expedite and expand Title V data gathering activities. This project by the Kashia Band of Pomo Indians proposes to expand water quality monitoring program and data sharing; and identify and prioritize water quality monitoring locations. This project by the Illinois Environmental Protection Agency proposes to develop a system to provide RCRAInfo and Underground Injection Control (UIC) data. This project by the Illinois Department of Natural Resources proposes to create a database for Upper Mississippi River (UMR) Water Resources. This project by the South Dakota Department of Agriculture and Natural Resources (SD DANR) proposes to make improvements to the SD UIC system.

This project by the Tennessee Department of Environment and Conservation – Division of Mineral and Geologic Resources (TDEC-DN) proposes to develop an environmental data catalog for the state of Tennessee. The project will include the development of a web-based application for data entry and management, and the creation of a data catalog for use by various state agencies and the public. The project will also include the development of a data analysis and reporting module. The project will be completed by December 31, 2025.

This project by the Massachusetts Department of Environmental Protection (MassDEP) proposes to develop an environmental data catalog for the state of Massachusetts. The project will include the development of a web-based application for data entry and management, and the creation of a data catalog for use by various state agencies and the public. The project will also include the development of a data analysis and reporting module. The project will be completed by December 31, 2025.

This project by the Minnesota Pollution Control Agency (MPCA) proposes to redesign MPCA's web-based surface WQ data services; and add new data layers to the MPCA's website. The project will include the development of a new data management system, and the creation of a new data catalog for use by various state agencies and the public. The project will be completed by December 31, 2025.

This project by the Spokane Tribe of Indian's Fisheries and Water Resources Division proposes to develop an application for data entry and management, and the creation of a data catalog for use by the tribe. The project will also include the development of a data analysis and reporting module. The project will be completed by December 31, 2025.

This project by the Nebraska Department of Environment and Energy (NDEE) proposes to build the LGTS interface and REST APIS Service. The project will include the development of a new data management system, and the creation of a new data catalog for use by various state agencies and the public. The project will be completed by December 31, 2025.

This project by the Texas Commission on Environmental Quality (TCEQ) proposes to eliminate the complete data set uploaded to ICIS AIR V. The project will include the development of a new data management system, and the creation of a new data catalog for use by various state agencies and the public. The project will be completed by December 31, 2025.

This project by the Hoopa Valley Tribe proposes to develop a modern, comprehensive data management system and software application for the tribe. The project will include the development of a new data management system, and the creation of a new data catalog for use by the tribe. The project will be completed by December 31, 2025.

This project by the Nevada Division of Environmental Protection's (NDEP) proposes to expand the water quality database for broader biologic monitoring. The project will include the development of a new data management system, and the creation of a new data catalog for use by various state agencies and the public. The project will be completed by December 31, 2025.

This project by the Arkansas Department of Energy and Environment's Department of Environmental Quality (DEQ) proposes to add new data layers to the DEQ's website. The project will include the development of a new data management system, and the creation of a new data catalog for use by various state agencies and the public. The project will be completed by December 31, 2025.

This project by the Oklahoma Department of Environmental Quality (DEQ) proposes to build a System Management Tool for public water systems. The project will include the development of a new data management system, and the creation of a new data catalog for use by various state agencies and the public. The project will be completed by December 31, 2025.

This agreement provides funding to the Academy of Sciences of Philadelphia (Provider/recipient) to provide technical assistance and related services to the Native Village of Eyak. The purpose of this award is to provide funding under the Inflation Reduction Act (IRA) to SNOQUALMIE INDIAN TRIBE. The recipient will implement grant programs to support the tribe's efforts to address climate change and protect natural resources. The purpose of this award is to provide funding under the Inflation Reduction Act (IRA) to NISQUALLY INDIAN TRIBE. The recipient will implement grant programs to support the tribe's efforts to address climate change and protect natural resources. The purpose of this award is to provide funding under the Inflation Reduction Act (IRA) to the Central Council of the Tlingit and Haida Indian Tribes of Alaska. The purpose of this award is to provide funding under the Inflation Reduction Act (IRA) to Aleut Community of Saint Paul Island. The recipient will implement grant programs to support the tribe's efforts to address climate change and protect natural resources. The purpose of this award is to provide funding under the Inflation Reduction Act (IRA) to Village of Solomon. The recipient will implement grant programs to support the tribe's efforts to address climate change and protect natural resources. The purpose of this award is to provide funding under the Inflation Reduction Act (IRA) to the Nez Perce Tribe. The recipient will implement grant programs to support the tribe's efforts to address climate change and protect natural resources. The Senior Environmental Employment (SEE) Program provides an opportunity for retired and unemployed older Americans aged 55 and over to work on environmental projects. This agreement provides funding to support the Local First Arizona Foundation (Provider/recipient) to provide technical assistance and related services to the tribe. The purpose of this award is to provide funding under the Inflation Reduction Act (IRA) to The Native Village of Eyak. The recipient will implement grant programs to support the tribe's efforts to address climate change and protect natural resources. The purpose of this award is to provide funding under the Inflation Reduction Act (IRA) to Alaska Native Tribal Health Consortium (ANTHC). This agreement provides funding under the Inflation Reduction Act (IRA) to Building Materials Re-use Association. This program is to support the Senior Environmental Employment (SEE) Program provides an opportunity for retired and unemployed older Americans aged 55 and over to work on environmental projects. This project will develop new models, methods, and software tools for discovering and designing novel reaction networks and processes that can be used to predict the behavior of complex chemical systems. This project aims to develop a predicted reaction network using experimental and computational data generated by the work to describe the behavior of complex chemical systems. The goal of this project is to develop a novel approach of concomitant stabilization of fresh source-separated urine with preferential struvite precipitation. This agreement provides funding under the Inflation Reduction Act (IRA) to the Research Triangle Institute (RTI) in the amount of \$7,000,000. This action increases federal funds by \$2,067,404 with funding from the Infrastructure Investment and Jobs Act (IIJA) for continued support of the tribe. The agreement awards a general supplement of \$8,738,000 in federal funding for which a ten percent (10%) State match of \$873,800 is required.

This Bipartisan Infrastructure Law (also known as the Infrastructure Investment and Jobs Act; Public Law 117-58) funded cooperative agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) (also known as the Bipartisan Infrastructure Law) for the Paden City Development Project. This cooperative agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) (also known as the Bipartisan Infrastructure Law) for the Paden City Development Project. This project provides funding under the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) (also known as the Bipartisan Infrastructure Law) for the Paden City Development Project. This Bipartisan Infrastructure Law (also known as the Infrastructure Investment and Jobs Act, Public Law 117-58) funded cooperative agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) (also known as the Bipartisan Infrastructure Law) for the Paden City Development Project. This Bipartisan Infrastructure Law (also known as the Infrastructure Investment and Jobs Act, Public Law 117-58) funded cooperative agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) (also known as the Bipartisan Infrastructure Law) for the Paden City Development Project. This agreement will provide funding under the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) (also known as the Bipartisan Infrastructure Law) for the Paden City Development Project. This cooperative agreement will provide funding under the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) (also known as the Bipartisan Infrastructure Law) for the Paden City Development Project. This agreement will provide funding under the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) (also known as the Bipartisan Infrastructure Law) for the Paden City Development Project. This cooperative agreement will provide funding under the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) for the Economic Development Project. This cooperative agreement will provide funding under the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) for Erie County Industrial Development Project. The purpose of this agreement is for a capitalization grant, funded by the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) (commonly referred to as the Bipartisan Infrastructure Law) for the Paden City Development Project. This cooperative agreement will provide funding under the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) for the Paden City Development Project. This agreement will provide funding under the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) for Oil Region Alliance to conduct environmental assessments. This agreement will provide funding under the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) for the City of Martinsville, Virginia to conduct environmental assessments. Section 1452 of the Safe Drinking Water Act (SDWA) authorizes the state to utilize funds to further the health protection objectives of SDWA. This Infrastructure Investment and Jobs Act (commonly referred to as the Bipartisan Infrastructure Law) funded grant for a capitalization grant for the Paden City Development Project. This Infrastructure Investment and Jobs Act (commonly referred to as the Bipartisan Infrastructure Law) funded grant is for a capitalization grant for the Paden City Development Project. This Infrastructure Investment and Jobs Act (commonly referred to as the Bipartisan Infrastructure Law) funded grant section 1452 of the Safe Drinking Water Act (SDWA) authorizes the state to utilize funds to further the health protection objectives of SDWA. The purpose of this assistance agreement is to award \$853,000.00 in federal funds to West Virginia Department of Environmental Protection for the Paden City Development Project. The purpose of this grant agreement is to provide funds to Maryland Department of the Environment (MDE) for it to provide sub-awards to local governments for the Paden City Development Project. Section 1452 of the Safe Drinking Water Act (SDWA) authorizes the state to utilize funds to further the health protection objectives of SDWA. This Infrastructure Investment and Jobs Act (PL 117-58) (commonly referred to as the Bipartisan Infrastructure Law) capitalization grant provides funding for the Paden City Development Project. Section 1452 of the Safe Drinking Water Act (SDWA) authorizes the state to utilize funds to further the health protection objectives of SDWA. This Infrastructure Investment and Jobs Act (commonly referred to as the Bipartisan Infrastructure Law) funded capitalization grant provides funding for the Paden City Development Project. The purpose of this Infrastructure Investment and Jobs Act (PL 117-58) (commonly referred to as the Bipartisan Infrastructure Law) funded capitalization grant provides funding for the Paden City Development Project. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. This assistance agreement provides funding from the Infrastructure Investment and Jobs Act (IIJA) for support of the Pennsylvania Department of Environmental Protection. This cooperative agreement, funded by the Infrastructure Investment and Jobs Act (commonly referred to as the Bipartisan Infrastructure Law) for the Paden City Development Project. This action increases the total approved assistance amount by \$2,000,000 with funding from the Infrastructure Investment and Jobs Act and the IIJA.

This Bipartisan Infrastructure Law (also known as the Infrastructure Investment and Jobs Act) funded grant will provide technical assistance and related services to the tribe. This Infrastructure Investment and Jobs Act (commonly referred to as the Bipartisan Infrastructure Law) funded grant will provide technical assistance and related services to the tribe.

This Bipartisan Infrastructure Law (also known as the Infrastructure Investment and Jobs Act) funded grant awards \$350,000 to West Virginia. This Bipartisan Infrastructure Law (also known as the Infrastructure Investment and Jobs Act) funded grant awards \$59,939 to the Virginia Department of Environmental Quality. This Infrastructure Investment and Jobs Act (IIJA) (commonly referred to as the Bipartisan Infrastructure Law) funded grant will provide technical assistance to the Penn State University (PSU) in the amount of \$40,000 and extends the budget period. This action awards supplemental funding in the amount of \$40,000 to the Penn State University (PSU) in the amount of \$40,000 and extends the budget period. This amendment increases federal funds by \$40,000 and brings the total budget and project costs to \$574,996, fully funding this award and ensuring its completion. This amendment is for the Pamunkey Indian Tribe to continue to develop environmental capacity building by taking training, buying supplies, and conducting assessments. This action increases the total approved assistance amount by \$44,021 of EPA in-kind funding (and recipient cost-share by \$2317), awards federal funds to the Pamunkey Indian Tribe. This cooperative agreement funds Lewis County Commission to conduct eligible assessment-related activities as authorized by CERLCA 104(k)(2). This cooperative agreement funds Shenandoah County to conduct eligible assessment-related activities as authorized by CERLCA 104(k)(2). This agreement funds the Delaware Department of Natural Resources and Environmental Controls program to conduct oversight of the response to PFAS contamination. The purpose of this award is to aid Delaware Department of Health in conducting sampling for the presence of emerging contaminants (PFAS). This Infrastructure Investment and Jobs Act (commonly referred to as the Bipartisan Infrastructure Law) funded grant will allow the University of Pennsylvania to continue to develop environmental capacity building by taking training, buying supplies, and conducting assessments. This grant agreement assists the Commonwealth of Pennsylvania Department of Environmental Protection (PADEP) to implement programs to address PFAS contamination. The purpose of this assistance agreement is to support Maryland Department of the Environment (MDE) in implementing EPA's FY2022-2023 PFAS Contamination Response Plan. The purpose of this Infrastructure Investment and Jobs Act (PL 117-58) (commonly referred to as the Bipartisan Infrastructure Law) funded grant is to award \$27,745,000.00 in federal funding for a capitalization grant. The purpose of this Infrastructure Investment and Jobs Act (commonly referred to as the Bipartisan Infrastructure Law) funded grant provides Virginia Department of Environmental Quality (DEQ) with \$34,494. This action partially funds the grant in the amount of \$34,494. Federal funds in the amount of \$39,006 are contingent upon availability of additional funding. The purpose of this Infrastructure Investment and Jobs Act (commonly referred to as the Bipartisan Infrastructure Law) funded grant is to award \$17,992,000. This Infrastructure Investment and Jobs Act (commonly referred to as the Bipartisan Infrastructure Law) funded grant will award \$17,992,000. This agreement may fund the participation of the recipient in activities including but not limited to the review of remedial investigation and feasibility studies. MDE CBRAP IV. This action increases the total approved assistance amount by \$190,000, along with a corresponding increase in match, and provides additional funding for the CBRAP IV. This Infrastructure Investment and Jobs Act (commonly referred to as the Bipartisan Infrastructure Law) funded grant is for a capitalization grant. Section 1452 of the Safe Drinking Water Act (SDWA) authorizes the state to utilize funds to further the health protection objectives of SDWA. This action increases the total approved assistance amount and recipient cost-share by \$29,044, awards federal funds in the amount of \$3,500. Section 1452 of the Safe Drinking Water Act (SDWA) authorizes the state to utilize funds to further the health protection objectives of SDWA. This Infrastructure Investment and Jobs Act (commonly referred to as the Bipartisan Infrastructure Law) funded grant will provide funding to the District of Columbia. This grant will provide funding to the District of Columbia, Department of Energy and Environment (DC DOEE), for the construction of three community gardens. This Bipartisan Infrastructure Law (also known as the Infrastructure Investment and Jobs Act, Public Law 117-58) funded cooperative agreement is for a capitalization grant. This award is the result of a project transfer from the Somerset County Economic Development Council to the Redevelopment Authority of Somerset County. This grant agreement allows the Audubon Society of Western Pennsylvania to work with residents, students, teachers, and municipalities to further the goals of the CBRAP IV. This Infrastructure Investment and Jobs Act (commonly referred to as the Bipartisan Infrastructure Law) funded grant will provide funding to the Commonwealth of Pennsylvania. This Infrastructure Investment and Jobs Act (commonly referred to as the Bipartisan Infrastructure Law) funded grant will provide federal funding to the Commonwealth of Pennsylvania.

The purpose of this award is to provide assistance to DNREC in its efforts to implement air pollution control programs throughout the state of Delaware.

This grant is funded from the Infrastructure Investment and Jobs Act (IIJA) for continued support of VADEQ's project implementation aimed at achieving nutrient reduction targets.

The purpose of this agreement is to provide funds to the recipient for it to provide funds to the District's Department of Public Works for costs associated with the implementation of the CBRAP IV. This project provides funding under the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) for Pittsburgh Conservation Corps to recruit, train, and place individuals in environmental justice communities. The purpose of this competitively selected cooperative agreement is to conduct ambient air monitoring of pollutants in communities with environmental justice concerns. This agreement may fund the participation of the recipient in activities including but not limited to the review of remedial investigation and feasibility studies. The primary objectives of EPA's CERCLA Section 128(a) State and Tribal Response Program grants are to provide financial support to States and Tribes to respond to releases of hazardous substances. This award provides funding through the BiPartisan Infrastructure Law (BIL) (also known as the Infrastructure Investment and Jobs Act (IIJA)). The Infrastructure Investment and Jobs Act ("IIJA") (commonly referred to as the Bipartisan Infrastructure Law (BIL)) provided additional funding to carry out the Section 128(a) grant program. This award provides funding through the Bipartisan Infrastructure Law (BIL) (also known as the Infrastructure Investment and Jobs Act (IIJA)). The Infrastructure Investment and Jobs Act ("IIJA") provided additional funding to carry out the Section 128(a) grant program. This award provides funding through the Bipartisan Infrastructure Law (BIL) (also known as the Infrastructure Investment and Jobs Act (IIJA)). The Infrastructure Investment and Jobs Act ("IIJA") (commonly referred to as the Bipartisan Infrastructure Law (BIL)) provided additional funding to carry out the Section 128(a) grant program. This agreement may fund the participation of the recipient in activities including but not limited to the review of remedial investigation and feasibility studies. The Infrastructure Investment and Jobs Act ("IIJA") provided additional funding to carry out the Section 128(a) grant program. This grant agreement provides funding to the City of Manassas, Virginia, to implement its Transmission Main Replacement project as directed by the City. This agreement funds the participation of the recipient in activities including but not limited to the review of remedial investigation and feasibility studies. The purpose of this grant is to provide assistance to DC DOE in its efforts to implement air pollution control programs throughout the District of Columbia.

This assistance agreement provides funding from the Inflation Reduction Act (IRA) to the Richmond Regional Planning District Commission (RRPC) to implement its project to construct a new wastewater treatment plant (WWTP) to serve the City of Chesapeake, Virginia. The grant agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) for the Economic Progress Alliance of Central Virginia (EPA) to conduct eligible assessment-related activities as authorized by CERCLA. This Bipartisan Infrastructure Law (BIL) (also known as the Infrastructure Investment and Jobs Act) funded cooperative agreement provides funding for the City of Chesapeake to conduct eligible assessment-related activities as authorized by CERCLA. This cooperative agreement provides funding from the Infrastructure Investment and Jobs Act (IIJA) (also known as the Bipartisan Infrastructure Law) funded this cooperative agreement. EPA's Solid Waste Management Program will provide funding for the City of Chesapeake to conduct eligible assessment-related activities as authorized by CERCLA. This grant agreement provides funding under the Inflation Reduction Act (IRA) to the Baltimore Metropolitan Council (BMC) to develop or update its wastewater treatment plant (WWTP) to serve the City of Baltimore, Maryland. The grant agreement provides funding under the Inflation Reduction Act (IRA) to the Hampton Roads Planning District Commission (HRPDC) to conduct eligible assessment-related activities as authorized by CERCLA. This assistance agreement provides funding under the Inflation Reduction Act (IRA) to the Delaware Valley Regional Planning Commission (DVRPC) to conduct eligible assessment-related activities as authorized by CERCLA. This assistance agreement provides funding under the Inflation Reduction Act (IRA) to Southwestern Pennsylvania Commission (SPC) to conduct eligible assessment-related activities as authorized by CERCLA. This cooperative agreement will provide \$500,000 in funding for Virginia Tech to conduct eligible assessment-related activities as authorized by CERCLA. This assistance agreement provides funding under the Inflation Reduction Act (IRA) to Lehigh Valley Planning Commission to develop or update its wastewater treatment plant (WWTP) to serve the City of Allentown, Pennsylvania. This cooperative agreement may fund the participation of the recipient in activities including but not limited to the review of remedial investigation and feasibility studies, and the preparation of environmental assessments and environmental impact statements. This action increases the total approved assistance amount and recipient cost-share by \$90,000 each; awards federal funds of \$2,087,067 to the City of Roanoke, Virginia. This cooperative agreement is funded by the Infrastructure Investment and Jobs Act (also known as the Bipartisan Infrastructure Law). EPA's Solid Waste Management Program will provide funding for the City of Roanoke to conduct eligible assessment-related activities as authorized by CERCLA. This Bipartisan Infrastructure Law (also known as the Infrastructure Investment and Jobs Act) funded cooperative agreement will provide funding for the City of Roanoke to conduct eligible assessment-related activities as authorized by CERCLA. This cooperative agreement may fund the participation of the recipient in activities including but not limited to the review of remedial investigation and feasibility studies, and the preparation of environmental assessments and environmental impact statements. This agreement may fund the participation of the recipient in activities including but not limited to the review of remedial investigation and feasibility studies, and the preparation of environmental assessments and environmental impact statements. The Bipartisan Infrastructure Law (also known as the Infrastructure Investment and Jobs Act) funded this cooperative agreement. EPA's Solid Waste Management Program will provide funding for the City of Roanoke to conduct eligible assessment-related activities as authorized by CERCLA. This cooperative agreement will provide funding for City of Roanoke to conduct eligible assessment-related activities as authorized by CERCLA. This Bipartisan Infrastructure Law (also known as the Infrastructure Investment and Jobs Act) funded cooperative agreement will provide funding for the City of Roanoke to conduct eligible assessment-related activities as authorized by CERCLA. This cooperative agreement may fund the participation of the recipient in activities including but not limited to the review of remedial investigation and feasibility studies, and the preparation of environmental assessments and environmental impact statements. This agreement may fund the participation of the recipient in activities including but not limited to the review of remedial investigation and feasibility studies, and the preparation of environmental assessments and environmental impact statements. The Bipartisan Infrastructure Law (also known as the Infrastructure Investment and Jobs Act) funded this cooperative agreement. EPA's Solid Waste Management Program will provide funding for the City of Roanoke to conduct eligible assessment-related activities as authorized by CERCLA. This agreement is supported by funding provided under the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) (also known as the Bipartisan Infrastructure Law). The purpose of this grant agreement is for a capitalization grant, funded by the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58), which will award federal funds in the amount of \$549,997, fully funding the award, to UMCES for the purpose of conducting a nutrient limitation study. This action awards federal funds in the amount of \$549,997, fully funding the award, to UMCES for the purpose of conducting a nutrient limitation study. This actions funds PSU's implementation of modeling support for the Chesapeake Bay Program partnership to assess the Chesapeake Bay water quality. This cooperative agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) (commonly referred to as the Bipartisan Infrastructure Law) funded this cooperative agreement. EPA's Solid Waste Management Program will provide funding for the Borough of Ambridge to conduct eligible assessment-related activities as authorized by CERCLA. This grant agreement provides funding to Frederick County Sanitation Authority, Virginia, to construct a well water treatment project as directed by the recipient. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazard. This cooperative agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) for the Borough of Pottstown to conduct eligible assessment-related activities as authorized by CERCLA. This cooperative agreement will provide funding for Young Preservationists Association of Pittsburgh to conduct eligible assessment-related activities as authorized by CERCLA. This cooperative agreement will provide funding for Harrison County Economic Development Corporation to conduct eligible assessment-related activities as authorized by CERCLA. This cooperative agreement will provide funding for Region 2 Planning and Development Council to conduct eligible assessment-related activities as authorized by CERCLA. This cooperative agreement provides Infrastructure Investment and Jobs Act (commonly referred to as the Bipartisan Infrastructure Law) funding for the City of Wilkes-Barre, Pennsylvania. This Infrastructure Investment and Jobs Act (commonly referred to as the Bipartisan Infrastructure Law or BIL) agreement provides \$7,640,000 in funding for the City of Wilkes-Barre, Pennsylvania. This This Infrastructure Investment and Jobs Act “(commonly referred to as the Bipartisan Infrastructure Law or BIL) agreement provides funding for the City of Wilkes-Barre, Pennsylvania. This Infrastructure Investment and Jobs Act (also known as the Bipartisan Infrastructure Law) funded grant agreement will provide funding to the City of Wilkes-Barre, Pennsylvania. This Infrastructure Investment and Jobs Act (also known as the Bipartisan Infrastructure Law) funded grant agreement will provide funding to the City of Wilkes-Barre, Pennsylvania. This Infrastructure Investment and Jobs Act (IIJA) (commonly referred to as the Bipartisan Infrastructure Law or BIL) agreement provides \$21,000 in funding for the City of Wilkes-Barre, Pennsylvania. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazard. This Bipartisan Infrastructure Law (also known as the Infrastructure Investment and Jobs Act) funded grant. This grant agreement will provide funding for the City of Wilkes-Barre, Pennsylvania. This Bipartisan Infrastructure Law (also known as the Infrastructure Investment and Jobs Act) funded grant will provide funding to replace an aging wastewater treatment plant (WWTP) in the City of Wilkes-Barre, Pennsylvania. Federal funds of \$48,000 are awarded to provide ambient air toxics measurements under the National Air Toxics Trends Station (NATTS) network. This Bipartisan Infrastructure Law (also known as the Infrastructure Investment and Jobs Act) funded grant agreement will provide funding for the City of Wilkes-Barre, Pennsylvania. This Bipartisan Infrastructure Law (also known as the Infrastructure Investment and Jobs Act) funded grant will provide funding to DC Water for the implementation of its project the Sewer Interceptor Rehabilitation Project. The grant agreement provides funding to the City of Wilkes-Barre, Pennsylvania. This cooperative agreement will provide funding under the Infrastructure Investment and Jobs Act (IIJA) (commonly referred to as the Bipartisan Infrastructure Law) funded this cooperative agreement. This cooperative agreement will provide funding for the City of Fairmont, West Virginia, to conduct eligible assessment-related activities as authorized by CERCLA. This cooperative agreement will provide funding for Johnstown Redevelopment Authority to conduct eligible planning, assessment, and remediation activities as authorized by CERCLA. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazard. This cooperative agreement will provide funding under the Infrastructure Investment and Jobs Act (IIJA) for the Government of the District of Columbia to conduct eligible assessment-related activities as authorized by CERCLA. This grant agreement provides funding to the City of Ripley to implement its project to construct a new wastewater treatment plant (WWTP) in the City of Ripley, West Virginia. This agreement will provide funding for Clarion County Economic Development Corporation (CCEDC) to conduct eligible assessment-related activities as authorized by CERCLA. This cooperative agreement will provide funding under the Infrastructure Investment and Jobs Act (IIJA) (commonly referred to as the Bipartisan Infrastructure Law) funded this cooperative agreement. The purpose of this agreement is for a capitalization grant, funded by the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) (commonly referred to as the Bipartisan Infrastructure Law). This grant agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) (commonly referred to as the Bipartisan Infrastructure Law) funded grant agreement provides funding to Pennsylvania Infrastructure Investment Authority (PENNVEST) for the implementation of its project the Safe

Soldier's Home Transmission Main BIL Sup FY23
Large Diameter Water Main Dead Ends Elimination FY22 BIL Sup
Geisinger Clinic - Dickson City - Brownfields Clean Up Grant
FFY2022 & 2023 EC-SDC grant
Delaware Sand & Gravel RA OU6
Koppers RD OU1
Halby Chemical O&M OU2
DC NATTS FY23-25
District of Columbia: FY2023 CW SRF BIL Emerging Contaminants
District of Columbia: FY2023 CW SRF BIL Supplemental
Kanawha, WV - Leatherwood Water Project
Smith Island Clean Water Project
VIMS MTM Patapsco Team
Mid Cameron Authority Sewer Interceptor to Plant Rehabilitation Project
UMCES MTM Choptank Team
NSIDC Community-wide Assessment Grant Program
DC DOEE FY2023 CWA BIL Administrative Oversight Grant
City of Morgantown Brownfield Cleanup Project
POOR CREEK PUMP STATION UPGRADES
BROWNFIELD COMMUNITY-WIDE ASSESSMENT
Waterline Replacement and WTP Rehabilitation Project

The purpose of this agreement is for a capitalization grant, funded by the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) (commonly referred to as the Bipartisan Infrastructure Law (BIL)) to the Clarksburg Water Board to implement its project to ensure safe drinking water and reliable infrastructure. This agreement provides funding to Clarksburg Water Board to implement its project to ensure safe drinking water and reliable infrastructure. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazard. This agreement provides funding to Southern Jackson County Public Service District (SJCPSD) to implement its project to upgrade existing water infrastructure. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazard. This cooperative agreement will provide funding under the Infrastructure Investment and Jobs Act (commonly referred to as the Bipartisan Infrastructure Law (BIL)) to the Green Streets, Green Jobs, Green Towns (G3) grant program. This cooperative agreement will provide funding under the Infrastructure Investment and Jobs Act (commonly referred to as the Bipartisan Infrastructure Law (BIL)) to the Green Streets, Green Jobs, Green Towns (G3) grant program. The main purpose of the Green Streets, Green Jobs, Green Towns (G3) grant program is to provide funding to local governments and non-profit organizations to implement projects that create green jobs, reduce greenhouse gas emissions, and improve air quality. This cooperative agreement will provide funding for Redevelopment Authority of the City of Harrisburg to conduct eligible assessment-related activities. This action awards federal funds of \$500,000. This cooperative agreement will provide funding for City of Huntington to conduct eligible assessments. This grant agreement provides funding to Pennsylvania Infrastructure Investment Authority (PENNVEST) under the Safe Drinking Water Act: Section 1452 and the Infrastructure Investment and Jobs Act (IIJA) (commonly referred to as the Bipartisan Infrastructure Law (BIL)) to the Pennsylvania Infrastructure Investment Authority (PENNVEST). This grant agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) (commonly referred to as the Bipartisan Infrastructure Law (BIL)) funded cooperative agreement program. This Bipartisan Infrastructure Law (BIL) (also known as the Infrastructure Investment and Jobs Act (IIJA)) funded cooperative agreement program. This Bipartisan Infrastructure Law (BIL) (also known as the Infrastructure Investment and Jobs Act (IIJA)) funded cooperative agreement program. This grant agreement provides funding to Berkeley County Public Service Water District to implement its project to upgrade Bunker Hill water infrastructure. This grant agreement provides funding to Virginia Department of Health (VDH) to assist an underserved community to meet and comply with applicable laws and regulations. This grant agreement provides funding to the Shady Spring Public Service District to implement its project to upgrade the Glen Morgan waste water infrastructure. This agreement provides funding to Salt Rock Sewer Public Service District (SRSPSD) to implement its project to upgrade and rehabilitate its waste water infrastructure. This agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA)/Bipartisan Infrastructure Law (BIL) to the Commonwealth of Pennsylvania. This award is the result of a novation from West Virginia Department of Health and Human Resources (WVDHHR) (4E-95306301-3) to West Virginia Department of Health and Human Resources (WVDHHR) (4D-95306401-3). This award is the result of a novation from West Virginia Department of Health and Human Resources (WVDHHR) (4L-95305601-3) to West Virginia Department of Health and Human Resources (WVDHHR) (FS- 99390021-2). This award is the result of a novation from West Virginia Department of Health and Human Resources (WVDHHR) (FS- 99390022-1) to West Virginia Department of Health and Human Resources (WVDHHR) (FS- 99390023-2). This action increases the total approved assistance amount by \$20,800 of EPA in-kind funding and recipient cost-share by \$1095; awards fees are not included. The grant provides funding to the Chickahominy Indian Tribe to build environmental capacity. The funds will be used to continue to develop a waste water infrastructure. This agreement provides funding to Maryland Department of the Environment (MDE). Safe Drinking Water Act (SDWA): Section 1452 and the Infrastructure Investment and Jobs Act (IIJA) (commonly referred to as the Bipartisan Infrastructure Law (BIL)) to the Maryland Department of the Environment (MDE) under the Safe Drinking Water Act: Section 1452 and the Infrastructure Investment and Jobs Act (IIJA) (commonly referred to as the Bipartisan Infrastructure Law (BIL)) funded cooperative agreement program. This grant agreement provides funding to the Maryland Department of the Environment (MDE) under Section 1452 of the Safe Drinking Water Act. This agreement provides funding to Maryland Department of the Environment (MDE). Safe Drinking Water Act (SDWA): Section 1452 and the Infrastructure Investment and Jobs Act (IIJA) (commonly referred to as the Bipartisan Infrastructure Law (BIL)) funded cooperative agreement program. This grant agreement provides funding to support the District of Columbia's Department of Public Works for costs associated with the planning and implementation of its waste water infrastructure. This grant agreement provides funding to Maryland Department of the Environment (MDE) under the Safe Drinking Water Act: Section 1452 and the Infrastructure Investment and Jobs Act (IIJA) (commonly referred to as the Bipartisan Infrastructure Law (BIL)) funded cooperative agreement program. The purpose of this agreement is for a capitalization grant which provides funds for the recipient's Clean Water State Revolving Fund. The purpose of this agreement is for a capitalization grant which provides funds for the recipient's Clean Water State Revolving Fund. The purpose of this agreement is for a capitalization grant, funded by the Infrastructure Investment and Jobs Act (IIJA) (commonly referred to as the Bipartisan Infrastructure Law (BIL)) funded grant agreement will provide funding to the District of Columbia. This Bipartisan Infrastructure Law (BIL) (also known as the Infrastructure Investment and Jobs Act) funded grant agreement will provide funding to the District of Columbia. This grant amendment will provide additional funding from the Bipartisan Infrastructure Law to the DC Water and Sewer Authority to replace a portion of its waste water infrastructure. The Bipartisan Infrastructure Law (BIL) (also known as the Infrastructure Investment and Jobs Act) funded grant agreement will provide funding to the District of Columbia. This Bipartisan Infrastructure Law (BIL) (also known as the Infrastructure Investment and Jobs Act) funded grant will provide funding to replace a portion of its waste water infrastructure. This Bipartisan Infrastructure Law (BIL) (also known as the Infrastructure Investment and Jobs Act) funded grant will provide funding to DC Water. This Bipartisan Infrastructure Law (BIL) (also known as the Infrastructure Investment and Jobs Act) funded grant agreement provides funding to DC Water. This Bipartisan Infrastructure Law (BIL) (also known as the Infrastructure Investment and Jobs Act (IIJA)) funded grant agreement will provide funding to the Geisinger Clinic. This cooperative agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) for Geisinger Clinic to conduct remediation activities. This grant agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) (also known as the Bipartisan Infrastructure Law (BIL)) funded grant agreement will provide funding to the Geisinger Clinic. This cooperative agreement awards federal funds of \$32,560, which fund the participation of the recipient in activities including but not limited to the review of remediation plans. This cooperative agreement awards \$22,626 in federal funds to Delaware Department of Natural Resources and Environmental Control (DNR). The purpose of this cooperative agreement is to fund the participation of the recipient in activities including but not limited to the review of remediation plans. Federal funds of \$50,254 are awarded to provide ambient air toxics measurements under the National Air Toxics Trends Station (NATTS) network. This Bipartisan Infrastructure Law (BIL) (also known as the Infrastructure Investment and Jobs Act (IIJA)) funded grant will provide funding to the Geisinger Clinic. This Bipartisan Infrastructure Law (BIL) (also known as the Infrastructure Investment and Jobs Act) funded grant will provide funding to the District of Columbia. This grant agreement provides funding to Kanawha County to implement its project to extend the Leatherwood waterline as directed in the 2022 Construction Plan. This grant agreement provides funding to Somerset County Sanitary District to implement its Smith Island Clean Water project as directed in the 2022 Construction Plan. This Infrastructure Investment and Jobs Act (IIJA) (also known as the Bipartisan Infrastructure Law (BIL)) funded cooperative agreement provides funding to the Mid-Cameron Authority to implement its project to replace a sewer interceptor as directed in the 2022 Construction Plan. This agreement provides funding to University of Maryland Center for Environmental Science (UMCES) to develop and calibrate a model for the assessment of water quality. This cooperative agreement will provide funding for North Side Industrial Development Company to conduct eligible assessment-related activities. To provide the District of Columbia with on-site construction management and oversight services to fully support the District's endeavor to acquire a portion of its waste water infrastructure. This Bipartisan Infrastructure Law (BIL) (also known as the Infrastructure Investment and Jobs Act (IIJA)) funded cooperative agreement provides funding to the City of Petersburg, Virginia, to implement its project to upgrade its sewer service area infrastructure. This cooperative agreement will provide funding for Business Development Corporation of the Northern Panhandle to conduct eligible assessments. This agreement provides funding to the Town of Kermit to implement its project to rehabilitate the water treatment plant and replace necessary equipment.

This rebudget amendment revises the current budget for Shamokin Creek Restoration Alliance. The recipient is moving \$145,341 from This agreement provides funding of \$150,000 under the Inflation Reduction Act (IRA) to Resilient Virginia. The project will build leadership capacity and resilience in the region. This cooperative agreement provides funding under the Inflation Reduction Act (IRA) to the Clean Air Council. Specifically, the recipient will use the funds to support the Energy-Health-Equity Project (EHE Project, or Project), which will create two technical resources: a decision-support tool and a report. The County proposes the Energy-Health-Equity Project (EHE Project, or Project), which will create two technical resources: a decision-support tool and a report. This cooperative agreement provides funding under the Inflation Reduction Act (IRA) to the City of McKeesport. Specifically, the recipient will use the funds to support the Energy-Health-Equity Project (EHE Project, or Project), which will create two technical resources: a decision-support tool and a report. The agreement provides funding to Pennsylvania Department of Environmental Protection (DEP). Specifically, the recipient aims to engage Environmental Justice (EJ) communities in the development of a state-level EJ framework. The agreement provides funding to the County of Allegheny, which includes the Allegheny County Health Department (ACHD). Specifically, the recipient will use the funds to support the Energy-Health-Equity Project (EHE Project, or Project), which will create two technical resources: a decision-support tool and a report. This Infrastructure Investment and Jobs Act (IIJA) (also known as the Bipartisan Infrastructure Law (BIL)) funded cooperative agreement provides funding to the National Fish and Wildlife Foundation (NFWF). This cooperative agreement, funded from the Infrastructure Investment and Jobs Act, provides the National Fish and Wildlife Foundation (NFWF) with additional funding to support its work. This grant will provide additional funding from the Infrastructure Investment and Jobs Act to supplement the funds previously made available to the National Fish and Wildlife Foundation (NFWF). This action increases the total approved assistance amount with EPA in-kind funding of \$6,240, awards Infrastructure Investment and Jobs Act grants to the National Fish and Wildlife Foundation (NFWF).

This cooperative agreement funds administration of the Community Capacity Building – Small Watershed Grants Program, which aims to build the capacity of frontline organizations working collaboratively on community and watershed health goals.

This grant agreement provides funding to the Borough of Freeport to implement its project to upgrade its wastewater treatment plant (WWTP). The agreement provides assistance to Delaware Department of Education (DE DOE) to implement a program of voluntary testing for lead in children's blood. This agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) to the State of Pennsylvania (PA) to implement research and development projects. This cooperative agreement may fund the participation of the recipient in activities including but not limited to the review of remedial investigation and feasibility studies. This award is the result of a novation from Pennsylvania Infrastructure and Investment Authority (PENNVEST) (M1-96372401-5) to Pennsylvania Infrastructure and Investment Authority (PENNVEST) (M1-95300801-2). This award is the result of a novation from Pennsylvania Infrastructure and Investment Authority (PENNVEST) (M1-95300801-2) to Pennsylvania Infrastructure and Investment Authority (PENNVEST) (M1-95300801-2). This grant agreement provides funding to the Town of Romney, to implement its project to reduce infiltration and inflow through sewer system. This agreement provides funding to the City of Keyser, WV to implement its project to upgrade its water treatment plant and distribution system. This agreement provides funding to the Wyoming Valley Sanitary Authority (WVSA) to implement its project to manage stormwater runoff and reduce flooding. This cooperative agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) for the Redevelopment Authority of the Commonwealth of Pennsylvania (RACP).

This Bipartisan Infrastructure Law (also known as the Infrastructure Investment and Jobs Act) funded grant to the Board of Education of Montgomery County is to replace 50 existing school buses with clean and zero emission (ZE) school buses.

This Bipartisan Infrastructure Law (also known as the Infrastructure Investment and Jobs Act) funded grant provides funding to Newport News Public Schools to replace 100 existing school buses with clean and zero emission (ZE) school buses. This Bipartisan Infrastructure Law (also known as the Infrastructure Investment and Jobs Act) grant provides funding to replace 100 existing school buses with clean and zero emission (ZE) school buses. This Bipartisan Infrastructure Law (also known as the Infrastructure Investment and Jobs Act) funded grant provides funding to Fairfax County Public Schools to replace 100 existing school buses with clean and zero emission (ZE) school buses. This cooperative agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) for North Side Industrial Development Corporation to implement its project to install approximately 5,000 linear feet of new water main.

This Bipartisan Infrastructure Law (also known as the Infrastructure Investment and Jobs Act) funded grant provides funding to the School District of Philadelphia to replace existing school buses with clean and zero emission (ZE) school buses.

This grant agreement provides funding to Prince William County Government, Virginia, to implement a stormwater assessment of the Town of Dumfries. The agreement provides funding to the Virginia Department of Environmental Quality (VADEQ). Specifically, the recipient will focus on supporting the implementation of the state's climate resilience strategy. The agreement provides funding to the District of Columbia Department of Energy & Environment (DOEE). Specifically, the recipient will use the funds to support the Energy-Health-Equity Project (EHE Project, or Project), which will create two technical resources: a decision-support tool and a report. The purpose of this project is to investigate how the coupled effects of extreme climate events and road salt salinization may be undermining the integrity of the region's infrastructure. The agreement provides funding to the Virginia Institute of Marine Science (VIMS). Specifically, the recipient will focus on developing strategies to protect and restore coastal ecosystems. This grant provides funding to West Virginia Department of Environmental Protection (WVDEP) for its Wetland Program and to fund a project to repair and correct two areas within its stormwater system. This project will focus on 1) improving regulatory project review and public access to resource, environmental justice, and climate change information. This agreement provides funding to Maryland Department of the Environment (MDE) to fund a project that will focus on improving construction practices and materials. This agreement provides funding to the Borough of Milford to implement its project to repair and correct two areas within its stormwater system. This assistance agreement provides funding under the Inflation Reduction Act (IRA) to Green and Healthy Homes Initiative, a Regional Grant Program. This agreement provides funding to Charles County, Maryland to implement its project to install a new 5.0 MGD interconnecting pipeline between two areas. This grant agreement provides funding to support Maryland Department of the Environment's project to provide a subaward to Caroline County. This agreement provides funding to the Preston County Public Service District 1, to implement its project titled Preston County PSD 1 for Water and Sewer. This grant agreement provides funding to support the West Virginia Department of Environmental Protection's OSG Program, which will provide funding to the Preston County Public Service District 1. This agreement provides funding to Parkersburg Utility Board to implement its project to connect unsewered properties to the sanitary sewer system.

This agreement provides funding to Talbot County to implement its sewer extension project as directed in the 2023 Consolidated Appropriations Act or as identified in an approved Technical Correction if one has been approved for this project.

The purpose of this award is to provide funding under the Inflation Reduction Act (IRA) to the Pennsylvania Department of Environmental Protection to implement its project for Water System Upgrades as directed in the 2023 Consolidated Appropriations Act or as identified in an approved Technical Correction if one has been approved for this project. This grant agreement provides funding to the County of Surry, Virginia, to implement its project for Water System Upgrades as directed in the 2023 Consolidated Appropriations Act or as identified in an approved Technical Correction if one has been approved for this project. This cooperative agreement will provide funding to Cameron County, Pennsylvania to conduct eligible assessment-related activities as authorized by the Infrastructure Investment and Jobs Act (IIJA). This Bipartisan Infrastructure Law (also known as the Infrastructure Investment and Jobs Act) funded cooperative agreement awards \$500,000 to the Pennsylvania Department of Environmental Protection to implement its project for Water System Upgrades as directed in the 2023 Consolidated Appropriations Act or as identified in an approved Technical Correction if one has been approved for this project. The purpose of this award is to provide funding under the Inflation Reduction Act (IRA) to Virginia Department of Environmental Quality. The purpose of this award is to provide funding to Raleigh County to implement its project to provide new and enhanced reliable, safe, wastewater collection and treatment facilities. This agreement provides funding to Lackawanna River Basin Sewer Authority to implement its project to replace the secondary clarifiers at the Upper Mattaponi Indian Tribe to carry out its program to maintain, protect, and improve the water quality of the Upper Mattaponi River. This agreement provides a capitalization grant, funded by the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58), for the recipient to implement its project to replace the secondary clarifiers at the Upper Mattaponi Indian Tribe to carry out its program to maintain, protect, and improve the water quality of the Upper Mattaponi River. This agreement provides a capitalization grant, funded by the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58), for the recipient to implement its project to replace the secondary clarifiers at the Upper Mattaponi Indian Tribe to carry out its program to maintain, protect, and improve the water quality of the Upper Mattaponi River. This agreement provides funding under the Inflation Reduction Act (IRA) to the Pittsburgh Conservation Corps. Specifically, the project will support the Pittsburgh Conservation Corps' work to restore and protect the Allegheny River. This assistance agreement provides funding to Virginia Department of Health (VDH) Office of Environmental Health Services (OEHS) to assist OEHS in its work to support the Allegheny River. This action awards federal funds of \$1,300,000 for the purpose of providing the Chesapeake Bay Program (CBP) partnership with updated information on the status of the Allegheny River.

This grant will supplement the funding for "Lead Service Line Replacement Contract 7" previously funded by Grant 4L-95321801-0 which was originally underfunded.

This grant agreement will provide funding to Construction Contracts 18 and 19 to replace lead service lines throughout the District of Columbia. The purpose of this grant agreement is for the Upper Mattaponi Tribe to continue to develop environmental capacity building by professional development and technical assistance. This grant award will supplement the funding of three existing lead service line replacement grants, Contracts 7 (Grant 95321801-0), 15 (Grant 4L-95321801-0), and 16 (Grant 4L-95321801-0). This assistance agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA), also known as the Bipartisan Infrastructure Law (BIL), to the Pennsylvania Department of Environmental Protection (DEP) to implement its project for Water System Upgrades as directed in the 2023 Consolidated Appropriations Act or as identified in an approved Technical Correction if one has been approved for this project. This cooperative agreement awards \$25,000 of federal funds to WVDEP. This funds the participation of the recipient in activities including, but not limited to, the review of remedial investigation reports and the preparation of remedial action plans. This cooperative agreement funds the participation of the recipient in activities including, but not limited to, the review of remedial investigation reports and the preparation of remedial action plans. This agreement provides funding to Montgomery County Department of the Environment to implement three projects to improve water quality in the Anacostia River. This grant provides funding to the University of Delaware (grantee) to implement a Science, Technology, Engineering and Mathematics, (STEM) program. This grant provides funding to the Anacostia Watershed Society to increase public awareness and knowledge about environmental issues in the Anacostia River. This agreement provides funding to the City of Westminster to implement its project for an Advanced Water Purification System as directed in the 2023 Consolidated Appropriations Act or as identified in an approved Technical Correction if one has been approved for this project. The purpose of this award is to provide funding under the Inflation Reduction Act (IRA) to Philadelphia Regional Port Authority. Specifically, this award will provide funding to the Philadelphia Regional Port Authority to implement its project for an Advanced Water Purification System as directed in the 2023 Consolidated Appropriations Act or as identified in an approved Technical Correction if one has been approved for this project. The purpose of this award is to provide funding under the Inflation Reduction Act (IRA) to the Delaware River and Bay Authority. Specifically, this award will provide funding to the Delaware River and Bay Authority to implement its project for an Advanced Water Purification System as directed in the 2023 Consolidated Appropriations Act or as identified in an approved Technical Correction if one has been approved for this project. The purpose of this award is to provide funding under the Inflation Reduction Act (IRA) to the Virginia Port Authority. Specifically, the recipient will provide funding to the Virginia Port Authority to implement its project for an Advanced Water Purification System as directed in the 2023 Consolidated Appropriations Act or as identified in an approved Technical Correction if one has been approved for this project. This assistance agreement will provide funding to the recipient to provide technical assistance (e.g., information, training, tools) to businesses in the Anacostia River. This grant agreement provides funding to the recipient for a project that will provide technical assistance (e.g., information, training, tools) to businesses in the Anacostia River. The purpose of this award is to provide funding under the Inflation Reduction Act (IRA) to the Philadelphia Regional Port Authority. Specifically, this award will provide funding to the Philadelphia Regional Port Authority to implement its project for an Advanced Water Purification System as directed in the 2023 Consolidated Appropriations Act or as identified in an approved Technical Correction if one has been approved for this project. This agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) to Maryland Coastal Bays Program. The purpose of this award is to provide funding under the Inflation Reduction Act (IRA) to Maryland Port Administration. Specifically, the recipient will provide funding to the Maryland Port Administration to implement its project for an Advanced Water Purification System as directed in the 2023 Consolidated Appropriations Act or as identified in an approved Technical Correction if one has been approved for this project. This agreement provides funding under the Inflation Reduction Act (IRA) to ECAP - The Energy Coordinating Agency Of Philadelphia, Inc. and the Philadelphia Regional Port Authority. Specifically, this award will provide funding to the Philadelphia Regional Port Authority to implement its project for an Advanced Water Purification System as directed in the 2023 Consolidated Appropriations Act or as identified in an approved Technical Correction if one has been approved for this project. The purpose of this award is to provide funding under the Inflation Reduction Act (IRA) to the Maryland Port Administration (MPA). Specifically, this award will provide funding to the Maryland Port Administration to implement its project for an Advanced Water Purification System as directed in the 2023 Consolidated Appropriations Act or as identified in an approved Technical Correction if one has been approved for this project. This grant agreement provides funding to Virginia Department of Environmental Quality (VADEQ) for a project that will provide technical assistance to businesses in the Anacostia River. This agreement provides funding under the Inflation Reduction Act (IRA) to City of Hampton, Virginia. Specifically, the project will work to create a new water treatment facility. The purpose of this award is to provide funding under the Inflation Reduction Act to Diamond State Port Corporation. Specifically, the recipient will provide funding to the Diamond State Port Corporation to implement its project for an Advanced Water Purification System as directed in the 2023 Consolidated Appropriations Act or as identified in an approved Technical Correction if one has been approved for this project. The grant agreement provides funding under the Inflation Reduction Act (IRA) to Henrico County Public Schools to replace in-use, non-zero-emission heating and cooling systems. The grant agreement provides funding under the Inflation Reduction Act (IRA) to Roanoke City Public School District (RCPS) to replace in-use, non-zero-emission heating and cooling systems. The agreement provides funding under the Inflation Reduction Act (IRA) to Fairfax County Public Schools to replace in-use, non-zero-emission heating and cooling systems. This agreement provides funding under the Inflation Reduction Act (IRA) to Rector and Visitors of the University of Virginia (UVA). Specifically, this award will provide funding to the University of Virginia to implement its project for an Advanced Water Purification System as directed in the 2023 Consolidated Appropriations Act or as identified in an approved Technical Correction if one has been approved for this project. This agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) to the Virginia Department of Environmental Quality to implement its project for an Advanced Water Purification System as directed in the 2023 Consolidated Appropriations Act or as identified in an approved Technical Correction if one has been approved for this project. This cooperative agreement may fund the participation of the recipient in activities including but not limited to the review of remedial investigation reports and the preparation of remedial action plans. This action provides funding in the amount of \$646,000 to support Alabama Department of Environmental Management's State of Alabama’s underground storage tank (UST) program. Specifically, this award will provide funding to the Alabama Department of Environmental Management to implement its project for an Advanced Water Purification System as directed in the 2023 Consolidated Appropriations Act or as identified in an approved Technical Correction if one has been approved for this project. This action approves an award in the amount of \$620,000 to the Tennessee Department of Environment and Conservation. This agreement provides funding in the amount of \$548,178 to the State of South Carolina Department of Health and Environmental Control (DHEC) to implement its project for an Advanced Water Purification System as directed in the 2023 Consolidated Appropriations Act or as identified in an approved Technical Correction if one has been approved for this project. This action provides funding in the amount of \$750,000 to the state of North Carolina’s underground storage tank (UST) program. Specifically, this award will provide funding to the North Carolina Department of Environmental Quality to implement its project for an Advanced Water Purification System as directed in the 2023 Consolidated Appropriations Act or as identified in an approved Technical Correction if one has been approved for this project. This action approves an award in the amount of \$700,000 to the state of Florida’s underground storage tank (UST) program. Specifically, this award will provide funding to the Florida Department of Environmental Protection to implement its project for an Advanced Water Purification System as directed in the 2023 Consolidated Appropriations Act or as identified in an approved Technical Correction if one has been approved for this project. This action approves an increase of the amount of \$44,100 to support the Kentucky Energy and Environment Cabinet. This agreement will all provide funding in the amount of \$5,743,400 to North Carolina Department of Environmental Quality to carry out its program to implement its project for an Advanced Water Purification System as directed in the 2023 Consolidated Appropriations Act or as identified in an approved Technical Correction if one has been approved for this project. This action approves a time extension of the budget and project performance period end date from 09/30/2021 to 09/30/2024 for the Memphis & Enviro Solutions, Inc. This action approves an award in the amount of \$688,420 to the Kentucky Energy and Environment Cabinet to provide supplemental funding to the Kentucky Energy and Environment Cabinet to implement its project for an Advanced Water Purification System as directed in the 2023 Consolidated Appropriations Act or as identified in an approved Technical Correction if one has been approved for this project.

CERCLA 128(a) Response Program BIL Cooperative Agreement for WDEQ
Brownfields Assessment Cooperative Agreement for Missoula County

This award is being made under CWA 106 using funding under Section 5004(d) of the WIIN Act. The activities identified by the Colorado Department of Public Health and Environment (CDPHE) are to be conducted by the Colorado Department of Public Health and Environment (CDPHE) and the Colorado Natural Heritage Program (CNHP). This Cooperative Agreement funds \$341,831.00 to the Confederated Salish and Kootenai Tribes Selis Qlipse Culture Committee (SQCC) to implement its program to maintain, protect, and improve the water quality of its rivers, streams, and lakes. This agreement will provide funding for the City of Missoula to capitalize a revolving loan fund from which to make loans and subawards to clean up multiple brownfield sites in Fort Totten, Sheyenne and St. Michael, North Dakota. Funding will be provided to the City of Missoula to implement its program to maintain, protect, and improve the water quality of its rivers, streams, and lakes. This agreement provides funding to Southern Ute to carry out its program to maintain, protect, and improve the water quality of its rivers, streams, and lakes. This award is being made under CWA 319 using funding under Section 5004(d) of the WIIN Act. The funding provided to and activity identified by the Colorado Department of Public Health and Environment (CDPHE) is to be conducted by the Colorado Department of Public Health and Environment (CDPHE) and the Colorado Natural Heritage Program (CNHP). Through this project Utah State University, in collaboration with state wetland managers, will carry out a wetland restoration demonstration project. Through the proposed project, CNHP, in partnership with stakeholders in the Healthy Headwaters Working Group, will carry out three major objectives of EPA's CERCLA Section 128(a) State and Tribal Response Program grants are to provide financial support to State and Tribal Response Programs. The projects and activities address in this grant proposal work to achieve the goals and objectives outlined in our State Wetland Plan (SWP). The objective of the work proposed here is to improve the quality of Utah's wetlands by completing two tasks that build on and refine previous work. The UGS proposes developing guidance material and enhancing collaboration with external organizations to improve data consistency. Guidance will be provided to the State and Tribal Response Programs to support their implementation of the SWP. The main objective of this project is to assess wetlands in the montane region of Utah, defined here as areas within the Southern Rockies and Colorado Plateau. Through this project the Colorado Natural Heritage Program (CNHP), in partnership with Boulder County and project stakeholders, will gather data on the status of wetlands in the montane region of Utah. This agreement will provide funding for Hinsdale County, CO to inventory, characterize, assess, and conduct cleanup planning and community engagement activities. This agreement will provide funding for the City of Loveland to inventory, characterize, assess, and conduct cleanup planning and community engagement activities. This award is being made under CWA 319 using funding under Section 5004(d) of the WIIN Act. The funding provided to and activity identified by the Colorado Department of Public Health and Environment (CDPHE) is to be conducted by the Colorado Department of Public Health and Environment (CDPHE) and the Colorado Natural Heritage Program (CNHP). This agreement provides funding to Utah to carry out its program to maintain, protect, and improve the water quality of its rivers, streams, and lakes. This project provides funding for Groundwork Denver to recruit, train, and place unemployed and underemployed residents of Sheridan, CO as environmental professionals. The primary objectives of EPA's CERCLA Section 128(a) State and Tribal Response Program grants are to provide financial support to State and Tribal Response Programs. This agreement provides funding to the Crow Creek Sioux Tribe to support their underground storage tank (UST) program. Specifically, this agreement will provide funding for the Crow Creek Sioux Tribe to implement a program to provide drinking water program assistance to underserved small and disadvantaged communities. In the Appropriations Act of 1996, PL 104-134 and Appropriations Act of 1998, PL 105-65, Congress authorized the award of Performance Based Grants (PBGs) to eligible states to implement a program to provide drinking water program assistance to underserved small and disadvantaged communities. This agreement provides funding to the City of Trinidad for cleanup at the Fox Theatre. Cleanup involves removal of asbestos containing materials. This agreement will provide funding for the City of Trinidad and their coalition members to inventory, characterize, assess, and conduct cleanup planning and community engagement activities. This agreement will provide funding for City of Mandan to inventory, characterize, assess, and conduct cleanup planning and community engagement activities. This agreement will provide funding to Dakota College at Bottineau to clean up two historic properties, Old Main and Milligan Hall. Grant funding will be provided to the City of Mandan to inventory, characterize, assess, and conduct cleanup planning and community engagement activities. This agreement will provide funding to the Colorado Department of Public Health and Environment to assist an underserved community to meet its environmental needs. The primary objectives of EPA's CERCLA Section 128(a) State and Tribal Response Program grants are to provide financial support to State and Tribal Response Programs. The purpose of this American Rescue Plan funded cooperative agreement is to advance enhanced monitoring of Particulate Matter 2.5 (PM2.5) in the Colorado Plateau. This agreement provides funding for the operation of the Cheyenne River Sioux Tribe's continuing environmental programs while giving it greater flexibility to respond to environmental challenges. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. This agreement is to an eligible state or tribe to implement a program to provide drinking water program assistance to underserved, small and disadvantaged communities. This agreement is to an eligible state or tribe to implement a program to provide drinking water program assistance to underserved, small and disadvantaged communities. This agreement is to the South Dakota Department of Agriculture and Natural Resources to implement a program to provide drinking water program assistance to underserved, small and disadvantaged communities. EPA's CERCLA Section 128(a) grant program funds activities that establish or enhance the capacity of state and tribal response programs. This project, located within the jurisdictional boundaries of the City of Westminster, Colorado will provide technical and analytical support services to the City of Westminster. This project provides funding to Mountain Studies Institute to implement its project, which will design, demonstrate, and disseminate environmental monitoring technologies. This project provides funding to Left Hand Watershed Oversight Group to implement its project, which will design, demonstrate, and disseminate environmental monitoring technologies. The agreement provides funding to support the Montana Department of Environmental Quality's project to provide subawards to local municipalities. The agreement provides assistance to Utah Department of Environmental Quality - Division of Drinking Water (DDW) to implement a program to provide drinking water program assistance to underserved, small and disadvantaged communities. This project provides funding to Protect Our Waters Jackson Hole to implement its project, which will design, demonstrate, and disseminate environmental monitoring technologies. This agreement will provide assistance to the Wyoming Department of Environmental Quality in its efforts to reduce diesel emissions and expand the use of alternative fuels. This agreement provides funding for the operation of the Confederated Salish and Kootenai Tribes' continuing environmental programs. This agreement provides funding for the establishment of the Wind River Tribes' (Eastern Shoshone and Northern Arapaho) environmental monitoring program. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. The primary objectives of EPA's CERCLA Section 128(a) State and Tribal Response Program grants are to provide financial support to States and Tribes. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. NYSDEC FY23-24 State DERA Grant Project
New York/New Jersey Harbor & Estuary Program Bipartisan Infrastructure Law FY 24 Investment
OAKRIDGE WATER DISTRICT IMPROVEMENTS REMOVAL OF CONTAMINANTS (INCLUDING PFOA/PFOS)
Improving air quality monitoring for Buffalo African-American community
Village of Oneida Castle Sanitary Sewer Collection System/Rebudget
Town of Riverhead- Drinking water project to residents affected by emerging contaminants
Colden Park Watermain Replacement Community Grant
US EPA Community Air Quality Monitoring for Ozone and Particulate Matter Air Pollution in Jersey City's Underserved Communities
NYSDEC Division of Water 2023 Long Island Sound Study Grant - Supplemental
CONSOLIDATED DRINKING & CLEAN WATER BASE PROGRAM INFRASTRUCTURE CONSTRUCTION GRANT
Rehabilitation of sanitary sewer system on Lee Avenue and Reservoir Avenue.
TOWN OF HAMMONTON SEWER INFRASTRUCTURE STUDY AND MINOR REPAIRS
The project involves the preliminary engineering and design of a new water desalination treatment facility to serve the residents and visitors of
Town of Babylon - Oak Beach Water Project
The Seneca Nation's Climate Pollution Reduction Planning
Unified Water Study Embayment Research for the 2024 Season
Promoting sustainable air quality at underserved neighborhoods in New York State through low-cost sensor monitoring, integrated measurem
Town of Rotterdam Wastewater Treatment Plant Improvements
Township of Bloomfield for Lead Service Line Replacement Program
SIDA Brownfield Multipurpose Grant Program
New York State Inflation Reduction Act Clean Air Act Grant
NJDEP Inflation Reduction Act Clean Air Act Grant
FY23 Sullivan County Revolving Loan Fund (RLF) Grant Program
SEDCO's Brownfield RLF 2023
FY23 City of Camden EPA Brownfields Cleanup Grant Application- Johnson Park
Saint Regis Mohawk Tribe - Climate Pollution Reduction FY23 Project
SUPPLEMENTAL FUNDS LUST PROVISIONS OF THE CONSOLIDATED APPROPRIATIONS ACT
Greater Syracuse Land Bank Brownfield Assessment Coalition Project
Cleanup Cooperative Agreement for City of Trenton - New Method Cleaners
Clean Water Funding: Training & Technical Assistance for Small & Rural Municipalities in the Mid-Hudson Region, New York
FY23 LEAP EPA COMMUNITY WIDE BROWNFIELDS ASSESSMENT GRANT
MVEDD's Brownfields RLF
Wayne County Regional Land Bank FY23 Brownfields Multipurpose Grant Program
Solid Waste Infrastructure for Recycling (SWIFR) Grants for States and Territories
Solid Waste Infrastructure For Recycling (SWIFR)
Fenceline and Screening Air Monitoring for the Saint Regis Mohawk Tribe Inflation Reduction Act 60105(a)
FY22 AGUAS BUENAS EPA COMMUNITY WIDE BROWNFIELDS ASSESSMENT GRANT
NYSDOH BIL Lead Service Line Replacement DWSRF
NYSDOH BIL Lead Service Line Replacement DWSRF FY23 Funding
NJDEP FY23 BIL CWSRF Emerging Contaminants
FFY 2024 BIL EC Clean Water SRF Grant

To capitalize the Drinking Water State Revolving Fund in New York State using the Bipartisan Infrastructure Legislation Funding.
NYSDOH Drinking Water SRF BIL Emerging Contaminants

This agreement provides assistance to the New York Department of Environmental Conservation (NYSDEC) to reduce diesel exhaust emissions. The Bipartisan Infrastructure Law (P.L. 117-58), also known as the "Infrastructure Investment and Jobs Act of 2021" (IIJA) or the "American Job Plan Act of 2021" (AJPA), provides funding to the Town of Lewisboro to implement its project to design and construct upgrades to the Oakridge Water Treatment Plant. The agreement provides funding under Inflation Reduction Act to conduct ambient air monitoring of pollutants of greatest concern in communities with environmental and health concerns. This agreement provides funding to the Village of Oneida to implement its project to provide public sewer service to Oneida Castle as directed by the New York State Department of Environmental Conservation. This agreement provides funding to the Town of Riverhead to implement its project to extend potable water to residents affected by emerging contaminants. This agreement provides funding to the Town of Newburgh, New York to implement its project for the Colden Park Watermain Replacement I. The agreement provides funding to conduct ambient air monitoring of pollutants of greatest concern in communities with environmental and health concerns. The purpose of this agreement is to provide assistance to the New York State Department of Environmental Conservation Division of Water Treatment and Wastewater. This Consolidated Grant provides funding from the Federal Fiscal Years 2022 and 2023 Drinking Water and Clean Water State Revolving Funds to the City of New Brunswick to implement its project to rehabilitate a portion of the sanitary sewer system. This agreement provides funding to the Town of Hammonton to implement its project to determine the source of the introduction of unwanted substances into the municipal water supply. This agreement provides funding to the City of Cape May to implement its project to design a Drinking Water Treatment Plant Expansion as directed by the New Jersey Department of Environmental Protection. This agreement provides funding to the Town of Babylon to implement its project to improve the Oak Beach water system as directed in the 2022 Consolidated State Revolving Fund Program. This agreement provides funding under the Inflation Reduction Act (IRA) to the Seneca Nation of Indians to develop or enhance climate action projects. The purpose of this agreement is to provide assistance to the Seneca Nation of Indians to implement its project to support the Long Island Sound Comprehensive Conservation and Management Plan. The agreement provides funding under Inflation Reduction Act to conduct ambient air monitoring of pollutants of greatest concern in communities with environmental and health concerns. This agreement provides funding to the Town of Rotterdam, New York to implement its project to improve and rehabilitate the aging infrastructure. This agreement provides funding to the Township of Bloomfield to implement its project to identify and replace lead pipes that have exceeded safe levels. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. This agreement provides funding under the Inflation Reduction Act (IRA) to the New York State Department of Environmental Conservation. The purpose of this grant is to support EPA Strategic Plan for Brownfields. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. This agreement provides funding under the Inflation Reduction Act (IRA) to the Saint Regis Mohawk Tribe to develop or enhance climate action projects. The main objectives of the Leaking Underground Storage Tank (LUST) corrective program are to investigate suspected petroleum releases and to remove or control the release of petroleum. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. This agreement provides funding to the Hudson Valley Regional Council. Specifically, the recipient will take on a multi-step approach to provide training and technical assistance to the Town of Poughkeepsie. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. This agreement provides funding from the Infrastructure Investment and Jobs Act (IIJA). EPA's Solid Waste Infrastructure for Recycling (SWIFR) program will support the implementation of the IIJA. This agreement provides funding from the Infrastructure Investment and Jobs Act (IIJA). EPA's Solid Waste Infrastructure for Recycling (SWIFR) program will support the implementation of the IIJA. The agreement provides funding under the Inflation Reduction Act (IRA) to the Saint Regis Mohawk Tribe for the expansion and enhancement of its water infrastructure. EPA has selected the Municipality of Aguas Buenas for a Brownfields Assessment Grant. Community-wide grant funds will be used to develop a plan for the remediation of brownfields. This agreement provides funding to the New York State Department of Health under the Safe Drinking Act, Section 1452 and Infrastructure Investment and Jobs Act (IIJA). This agreement provides funding to the New York State Department of Health under the Safe Drinking Water Act (SDWA). Section 1452 and the Safe Drinking Water Act (SDWA) are intended to protect public health. The purpose of this agreement is for a capitalization grant which provides funds for the recipient's Clean Water State Revolving Fund (CWSRF) program. This agreement funds a capitalization grant for the recipient's Clean Water State Revolving Fund (CWSRF) program with a primary purpose of funding infrastructure projects. Section 1452 of the Safe Drinking Water Act (SDWA) authorizes the state to utilize funds to further the health protection objectives of SDWA. This agreement provides funding to the New Jersey Department of Environmental Protection. Section 1452 of the Safe Drinking Water Act (SDWA) authorizes the state to utilize funds to further the health protection objectives of SDWA. This agreement provides a capitalization grant, funded by the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58), for the recipient's CWSRF program. The primary purpose/objective of this program is to capitalize New Jersey DW SRF program for funding Emerging Contaminants projects conducted by the New Jersey Department of Environmental Protection. The purpose of this agreement is for a capitalization grant which provides funds for the recipient's Drinking Water State Revolving Fund (DWSRF) program. This agreement provides a capitalization grant, funded by the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58), for the recipient's CWSRF program. Section 1452 of the Safe Drinking Water Act (SDWA) authorizes the state to utilize funds to further the health protection objectives of SDWA. This agreement provides funding to the New Jersey Department of Environmental Protection. Safe Drinking Water Act (SDWA): Section 1452 and the Safe Drinking Water Act (SDWA) are intended to protect public health. This agreement provides a capitalization grant, funded by the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58), for the recipient's CWSRF program. The primary purpose/objective of this program is to capitalize New Jersey DW SRF program for funding Emerging Contaminants projects conducted by the New Jersey Department of Environmental Protection. The purpose of this agreement is for a capitalization grant which provides funds for the recipient's Drinking Water State Revolving Fund (DWSRF) program. This agreement provides a capitalization grant, funded by the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58), for the recipient's CWSRF program. The purpose of this agreement is for a capitalization grant, funded by the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58), which provides funds for the recipient's Clean Water State Revolving Fund (CWSRF) program. This agreement funds a capitalization grant for the recipient's Clean Water State Revolving Fund (CWSRF) program with a primary purpose of funding infrastructure projects. The purpose of this agreement is for a capitalization grant, funded by the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58), which provides funds for the recipient's Clean Water State Revolving Fund (CWSRF) program. This agreement funds a capitalization grant for the recipient's Clean Water State Revolving Fund (CWSRF) program with a primary purpose of funding infrastructure projects. The purpose of this agreement is for a capitalization grant, funded by the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58), which provides funds for the recipient's Clean Water State Revolving Fund (CWSRF) program. The purpose of this agreement is for a capitalization grant, funded by the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58), which provides funds for the recipient's Clean Water State Revolving Fund (CWSRF) program. This agreement funds a capitalization grant for the recipient's Clean Water State Revolving Fund (CWSRF) program with a primary purpose of funding infrastructure projects. The purpose of this agreement is for a capitalization grant, funded by the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58), which provides funds for the recipient's Clean Water State Revolving Fund (CWSRF) program. This agreement funds a capitalization grant for the recipient's Clean Water State Revolving Fund (CWSRF) program with a primary purpose of funding infrastructure projects. Section 1452 of the Safe Drinking Water Act (SDWA) authorizes the state to utilize funds to further the health protection objectives of SDWA. This agreement provides funding to the New York State Department of Health. Section 1452 of the Safe Drinking Water Act (SDWA) and Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) provide funding for the implementation of the IIJA. This agreement provides funding to the New York State Department of Health under the Safe Drinking Act, Section 1452 and Infrastructure Investment and Jobs Act (IIJA) (PL 117-58). The purpose of this agreement is for a capitalization grant which provides funds for the recipient's Clean Water State Revolving Fund (CWSRF) program. This agreement funds a capitalization grant for the recipient's Clean Water State Revolving Fund (CWSRF) program with a primary purpose of funding infrastructure projects.
